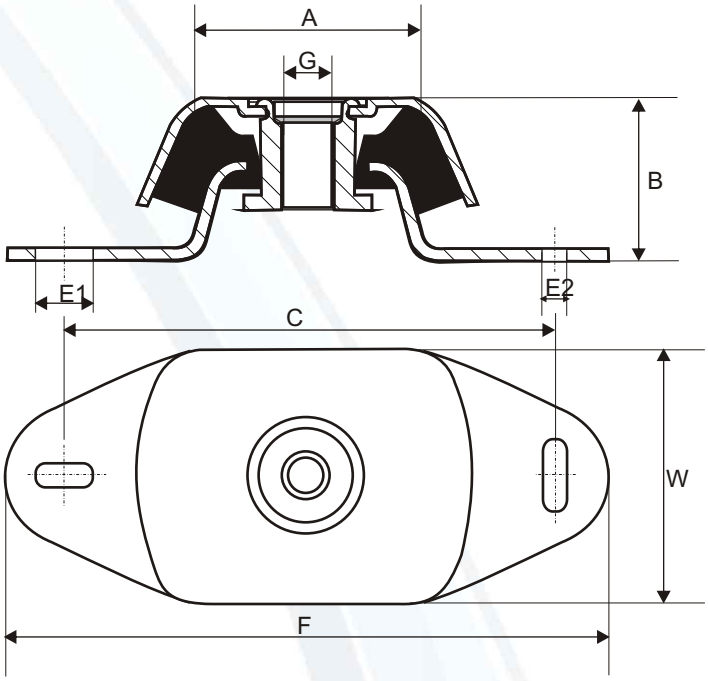
SOPORTE MARINO- MARINE MOUNTS- SUPPORT MARIN

E&B RUBBER METAL

EGA MARINE



The elastic mounts EGAMARINE are mainly used for marine applications (engines, compressors, pumps, gensets, etc.). they are fitted with a mechanical stop or failsafe to ensure a correct stability and avoids damages due to traction movements. That mount guarantees different degrees of stiffness in the three main axes.

Todos los modelos están fabricados con la arandela de seguridad (Fail Safe).
All models are manufactured with Lockwasher (Fail Safe).

AMORTIGUADORES EGA MARINE
